OUR VALUES

Respect: We work with all the major faiths, respecting and valuing the diversity of perspectives and understanding that this brings.

Catalysts of change: We seek to grow faith-consistent investing by inspiring faith leaders to take action, working innovatively and ambitiously together to achieve impact.

Open and listening: We are people focussed and relationship based, seeking to involve and engage stakeholders and partners in all our work.

Social justice: We believe in justice, dignity and fair access to global resources for all.

Valuing our planet: We believe that the faiths have a key role in leading the conservation and sustainability of our planet. We strive to act by example, consciously reducing our own ecological footprint to minimise our impact on the planet.

Creativity: We seek to harness the creativity and commitment of our team members and their diverse knowledge, expertise, and skills to further common goals.
